Oct 14	Dish to Pass Dinner	
Nov 11	Election	
Dec 9	Holiday Decorations	Ray Fox

Minutes LH Bailey Garden Club Aug.12, 2008

Club members gathered at the home of Joe and Fran Dannelly on Ellis Hollow Creek Road to view the Japanese style garden. A lot of work has gone into planning and caring for this garden

We had a short business meeting beginning at 7:00 PM.

Helen Swank reported that we have \$ 1162.02 in unrestricted funds. We also have money in a savings account and a CD.

Ken and Ruth Devine will tend the garden club booth at the State Fair on Friday August 29 in the morning. Debbie Nero and Ruth Doll will tend the booth in the afternoon.

Several members had ideas about how to spend some of the club's money. We will buy some bulbs to be planted in October at the Hospicare on East King Road. Ed will order the bulbs and coordinate the planting.

Doing something at Ithaca Falls was discussed. Beverly suggested a stone bench and Joan suggested fixing the path.

September 9, 2008

For the September 9th meeting we will have a plant exchange. Please bring some plants to share with other club members.

Planting for Hospice Oct. 11, 2008

Lisa Miller requested miniature daffodils for the front rock garden area. The following short varieties were selected.

Narcissus Baby Moon

A free-flowering, pale canary-yellow miniature, Baby Moon is great for rock gardens! One of the very latest narcissus to flower. Bulb size: 10 cm/up. May. 7". HZ: 5-9.

Narcissus Jetfire

An early-blooming naturalizer, this celebrated American hybrid has a vivid yellow, reflexed perianth and a strong orange trumpet. Bulb size: 14/16 cm. April. 8" to 10". HZ: 3-8.

Narcissus jonquilla simplex

Circa 1750, this late-flowering, fragrant species has numerous, golden-yellow flowers per stem with reed-like foilage. Bulb size: 6 cm/up. Late April. 10" to 12". HZ: 5-9.

Narcissus Little Gem

Circa 1938, this early-flowering jewel is clear yellow with a deep yellow, flared trumpet. Bulb size: 10/12 cm. April. 5" to 6". HZ: 4-8

Narcissus Small Talk

A charming Grant Mitsch variety, this golden-yellow miniature looks like a little starburst in the garden. Bulb size: 8/10 cm. April. 5" to 6". HZ: 4-8.

Narcissus Sundisc

Its bright buttercup-yellow petals so overlap one another around its slightly darker, disk-shaped cup, that they really do appear as little disks of bright garden spotlights. It has narrow foliage and a sweet fragrance. Late flowering. Bulb size: 10/12 cm. May.
