

Introducing Your Market to a Larger Customer Base

Benjamin Vitale
Executive Director
CNY Regional Market Authority
Syracuse, New York 13208

The value and benefit of showcasing one's business at a farmers market should not be underscored. This presentation aims to introduce participants to alternative marketing strategies, including, but not limited to being exposed to a larger, more diverse customer base. Participants will also learn about the cost benefits of establishing their business at a farmers market, such as lower overhead costs and the opportunity to expand from retail to wholesale.
