

76-page pocket guide

Tree ID Guide for Common Urban Trees in New York State and the Northeast

Fully illustrated 4-inch by 6-inch pocket guide helps people with little or no experience to identify common urban trees throughout the year.

\$18

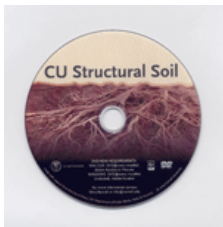

133-page booklet

Recommended Urban Trees: Site Assessment and Tree Selection for Stress Tolerance

Includes site assessment and transplanting guide and features profiles of 35 species (and numerous cultivars) of small trees suitable for planting under overhead utility wires or in restricted space, as well as 57 medium to large trees that do well in city environments. 8 tables detail soil, shade and salt tolerance, ease of transplanting and more.

\$20

DVD

CU-Structural Soil (DVD)

Includes three videos: *Support Your Local Tree* (13:30, describes background, mixing and placement of CU-Structural Soil), and two shorts showing excavations of London Plane trees with roots growing in CU-Structural Soil for 5 or 7 years. Also includes .pdf file of the 15-page booklet on *Using CU-Structural Soil™ in the Urban Environment*.

\$29.95

23 min. DVD

Tough Trees for Tough Sites (DVD)

23-minute DVD aids in tree selection in the urban landscape. Explains the process of site assessment -- understanding environmental limitations to plant growth that determines appropriate plants for any particular site. Follows a real-life tree planting project in the city of Ithaca, N.Y. DVD includes .pdf file of *Recommended Urban Trees* (see above).

\$29.95.

15 min. DVD,
16-page booklet

Creating an Urban Forest: The Bare Root Planting Method (DVD)

15-minute DVD demonstrates new, cost-effective method for reforestation of our urban spaces. Lightweight, bare root trees planted by volunteers eliminates the need for heavy equipment and intensive labor commitments for city forestry departments. DVD includes .pdf file of *Creating the Urban Forest – The Bare Root Method*.

\$29.95
