Name:  

Email address:  

Major:  

What is your experience or background with art, such as painting, illustration and drawing? With journal keeping and creative writing? (There is no experience necessary, and studios will be presented at a beginner level.)

What is your background with plants and gardens? (Again, no plant science or horticulture experience is necessary). I’m looking at the range of experiences associated with plants, gardens, and horticulture. For example, have you ever had a garden? Spent time in a public garden?

Are you experienced with photography?  

Do you have a camera?  

If yes, what kind (digital or single lens reflex?)  

Would you be able to bring it to a class in April devoted to garden photography?  

In general, what are your expectations for this course? What do you hope to gain from it?

What else would you like me to know about you?

Thank you!
